## Summary

I am a Software Engineering student at UANL with practical experience in mobile development using Flutter and Swift, focusing on user-centered design and writing clean, efficient code. During my studies, I have been exploring modern frameworks to build dynamic and responsive web applications. I am passionate about transforming ideas into innovative digital solutions by combining creativity and functionality. My approach emphasizes continuous learning and a commitment to delivering seamless user experiences.

## Work Experience

### Digital Catalog Developer, Freelance, Monterrey

MARZO 2021 – MARZO 2022

Designed and implemented a CRUD system using PHP with relational databases. Applied OOP and SOLID principles to manage products, users, and sales efficiently.

## Projects

### MoonHike

JUNIO 2024 – NOVIEMBRE 2024

Developed a mobile app for Android that suggests safe routes based on incident data, lighting, and community reports, prioritizing user safety.

### PC Controller

JULIO 2024 – OCTUBRE 2024

Created a mobile app for Android to control web navigation, multimedia playback, and PowerPoint presentations directly from a device.

### PocketPal

AGOSTO 2023 – DICIEMBRE 2023

Designed a web application in C# for managing personal budgets and expenses, featuring financial history tracking, detailed reports, and tools for efficient economic control.

## Education

### Bachelor's Degree , Universidad Autónoma de Nuevo León (UANL), San Nicolás de los Garza

ENERO 2022 – PRESENTE

Bachelor's Degree in Software Engineering

### Technical Degree, Centro de Bachillerato Tecnológico Industrial y de Servicios No. 30 (CBTis 30), Cerro Azul

AGOSTO 2018 – JUNIO 2021

Technical Programming Degree

## Certifications

### Scrum Fundamentals Certified, SCRUMstudy - Accreditation Body for Scrum and Agile

AGOSTO 2024 – NOVIEMBRE 2024

### Programming Logic: Dive into Programming with JavaScript, Alura Latam

OCTUBRE 2023 – ENERO 2024
